EDITORIAL

Dear Marists of Champagnat, networking is exciting and challenging. With Champagnat Global, we are on the "front line" of innovation in the international management of a group of schools. Currently, it is very important that we promote and strengthen the culture of cooperation. Gradually, we are implementing activities to foster that culture among us - don't miss the activities that some groups are inviting us to during the month of March!

ITINERARY OF THE MARIST GLOBAL NETWORK OF SCHOOLS

To understand the present and the future of many projects, it is necessary to know their origins, the initial motivations and the processes followed over time. The Marist Global Network of Schools has only just come into being, but it already has a history of gestation that we believe must remain in the collective Marist memory over time. This is the reason why we take the opportunity to present the document: [Itinerary of the Marist Global Network of Schools](#) in its [summarised version](#).

The paper highlights the following ideas:

- ▶ The origin of the Marist Global Network of Schools responds to the need felt by the Marist Institute to "**Journey together as a global family**" (XXII General Chapter, 2017).

- ▶ The **building** of the Network has been carried out in a **co-creative and participatory way**, based on the collective capacity of the international Marist school community.

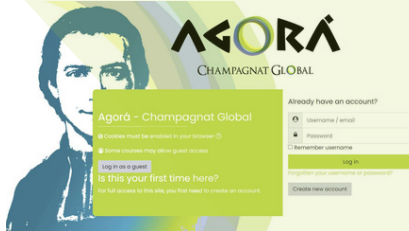

- ▶ The Marist Global Network of Schools is materialised in a **space for meeting**, connection, and exchange, called **CHAMPAGNAT GLOBAL**, which also has a **digital platform: AGORÁ**, that **facilitates interaction** between groups with common interests.

- ▶ The Network has been set up in **prototype** mode, so that with the experience gained, the **model designed** can be validated, **lessons learnt**, and **improved versions developed**, until a stable model is found that responds correctly to the expectations and challenges of the Marist school communities of the world.

THE GLOBAL MARIST STUDENT COUNCIL, AN INITIATIVE TO EMPOWER YOUNG MARISTS INTERNATIONALLY

On February 7th Aisling Demaison, Director of Marist Education for the Province of West Central Europe, and Javier Llamas, representing the Marist Global Network of Schools, met at Marist College Dublin (Marian College) to continue to promote initiatives that the Marist Global Network of Schools is making possible for the international Marist school community.

Ireland has an exciting leadership programme to empower Marist students that is worth sharing with other regions of the world.

If your school is interested in being part of a group of young student leaders with whom to promote Marist values and connect with similar groups in other countries around the world, you can join Aisling's **Global Marist student council** on Agora.

PRINCIPALS OF MARIST SCHOOLS IN COLOMBIA DEEPEN THEIR KNOWLEDGE OF THE CHAMPAGNAT GLOBAL NETWORK

At the invitation of Brother Leonardo Yepes, the Marist Global Network of Schools participated in the meeting of the Directors of the Schools of Colombia which took place on Wednesday 16 February 2022. It was a very propitious meeting to continue to learn about the process that the network is following and to deepen the opportunities that it offers to each school.

The meeting highlighted the importance of participating in the activities that are being organised as an open network: webinars, courses... and the activities carried out on the Agorá platform for those who wish to meet and interact on topics of common interest.

INVITATIONS TO PARTICIPATE IN AGORÁ

The **THIRD EDUCATOR** group invites to its group launching meeting, all those interested in the topic related to the creation of learning spaces that enable being and doing in the integral development of students.

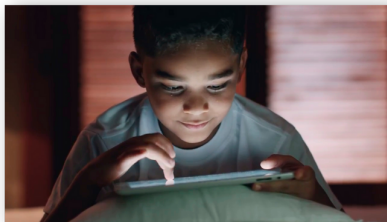

The meeting (**Spanish language**) will take place on Thursday **10 March at 16:00 in Montevideo, Uruguay (20:00 in Rome, Italy).**

The group **SEGURIDAD DIGITAL** organises a very interesting conference entitled: "**Digital risks of children and young people and preventive education at school and at home**".

The conference will be given by **Rosa Pérez, Director of Digital Education** at the consultancy firm **Gaptain (Spain)**.

We will learn about a study on the diagnosis and digital mapping of real schools to see how pupils use technology and how it determines their social relationships. Information will be provided on the type of skills needed to prevent these digital risks.

The conference (**English and Spanish languages**) will be held on **Tuesday 15 March at 13:00 in Santiago de Chile, Chile (17:00 in Rome, Italy)**.
