Champagnat Global Week is focusing the daily attention of Champagnat Global. That is why everything that is happening is related to this event, which is undoubtedly helping the network to be known and continue to grow. We bring you up to date:

CHAMPAGNAT GLOBAL'S ADVISORY COMMITTEE MOVES FORWARD IN ITS WORK OF ACCOMPANIMENT

During the months of June, July and September, the advisory committee of Champagnat Global has held online meetings with the aim of advising and validating the proposed roadmap of the network, established for the period 2023-25, sharing opinions and suggestions on the initiatives and activities planned for this year, especially Champagnat Global Week, and analysing the proposal for the next face-to-face meeting of Champagnat Global to take place in March 2025.

Having an advisory team of recognised professionals representative of the whole Marist world gives us the confidence of being able to count on an accompaniment in which the proposals and planning of Champagnat Global have the consideration of those who know the Marist reality very well.

The next meeting is scheduled for January 2024 and will focus especially on the evaluation of the activities of the year 2023 and on the progress of the planning of the face-to-face meeting of Champagnat Global 2025.

We at Champagnat Global are very grateful to: **Eduardo Preciado** (Arco Norte), **June Alisson** (South America), **Patxi García** (Europe), **Mark Omede** (Africa), **Manuel de León** (Asia), **Frank Malloy** (Oceania) for their willingness and generous support in driving the network forward.

What Kind Of Global Citizen Are You?

THE MARIST SCHOOL CONNECTION RACE BEGINS

Sports activities are part of the Marist educational tradition. Within the planning of the CHAMPAGNAT GLOBAL WEEK, we wanted to include an activity that will help us **to combine the practice of sports with the connection with other Marist schools in the world.**

The activity is called: Champagnat Global Run and consists of **visiting a Marist school, in a virtual way, accumulating kilometers in a physical way.**

To do this, in the school that wishes to participate in the initiative, **a team of participants will be formed** (students, teachers, management team, former students, families of students, etc.) This team will choose a school that they want to visit virtually, they will measure the kilometers of distance, organize the way to accumulate the kilometers and arrive at the chosen destination. What will happen next is part of the surprise...

The schools that decide to participate will be able to start the activity on the date they wish, over the

course of a year and the duration will depend on the distance between the Marist schools and the organization of the activity.

To learn more about this initiative, **we invite you to participate on October 20** in the information session we will have about the Champagnat Global Run.

For more information and registration **SEE THE SCHEDULE**.

We are sure that **the presence of Brother Niño Pizarro will be very enriching** for the development and promotion of the Institute's Secretariat for Education and Evangelization.
