BLOCK I

INTRODUCTION - PRESENTATION (Conference room)

- **Welcome.** Initial greeting
- **Presentation** of the programme
- **Prayer**

VENEZ ! VENEZ !

“

Dear Brothers, in order to succeed in teaching religion and to satisfy the demands of the world, which is almost always blind to the education of children, we cannot neglect the other branches of instruction which a Brother of Mary needs. Writing, Grammar, Arithmetic, History, Geography and, if necessary, even Drawing, Geometry and Bookkeeping will also be the object of our studies and the subject of our conferences. We will use all this as an innocent bait to attract the children and then teach them to love God, to save themselves. Let us be, first of all, good catechists, but let us try to become, also, skilful teachers

(Champagnat, letter 313: Invitation to the brothers to continue their formation at the Hermitage, January 1840).

- **Practical aspects of the meeting.** Practicalities.

- **Presentation of participants** by region and country:

Flag dynamics: (San José patio)

All the participants will be placed in the Patio San José, by regions (we will have a few minutes to organise the participation and handing over of flags in each group).

Then, the coordinator of each region will make a general presentation of the origin of those who form the region. As each country is named, a representative will hang the respective flag and the members of that country will introduce themselves, stating their name, place of origin and responsibility.

Order of participation:

Oceania – Asia – Africa – Europe – South America – Northern Arc – General Administration
